# Contents

**Introduction**  
Authors declaration  

**Part 1. The cerebral small vessel disease and current concepts**

**Chapter 1**  
**The cerebral small vessel disease**  
1.1. Epidemiology of cerebral Small Vessel Disease  
1.2. Pathogenesis of cerebral Small Vessel Disease  
1.3. Classification of cerebral Small Vessel Disease  
1.4. Neuroimaging markers of cerebral Small Vessel Diseases  
1.5. Clinical correlates and cerebral Small Vessel Disease-related disability  
1.6. CADASIL: genetic form of cerebral Small Vessel Disease  
1.7. Therapeutic aspects in cerebral Small Vessel Diseases  

**Chapter 2**  
**Cerebral amyloid angiopathy**  
2.1. Epidemiology of Cerebral Amyloid Angiopathy  
2.2. Pathophysiology of Cerebral Amyloid Angiopathy  
2.3. Genetics risk factors for Cerebral Amyloid Angiopathy  
2.4. Clinical manifestations in Cerebral Amyloid Angiopathy  
2.5. Neuroimaging manifestations and Boston criteria for the diagnosis of Cerebral Am-yloid Angiopathy  

**Chapter 3**  
**Neuroimaging markers of cerebral small vessel diseases**  
3.1. Non-hemorrhagic manifestations of Small Vessel Disease  
3.2. Hemorrhagic manifestations of Small Vessel Disease  
3.3. Additional Imaging Modalities and Diffusion Tensor Imaging  

**Chapter 4 - Cerebral small vessel disease and cognition**  
4.1. Dementia and Vascular Cognitive Impairment  
4.2. The concept of Mild Cognitive Impairment  
4.3. Small Vessel Disease neuroimaging markers and cognitive decline  

References
Cerebral Small Vessel Disease and Cerebral Amyloid Angiopathy

PART 2. EXPERIMENTAL SECTION

Objectives and Hypothesis of the research 59

Chapter 1

Cerebral Small Vessel Disease and neuroimaging features 61

2.1.1 Cerebral microbleeds in patients with mild cognitive impairment and small vessel disease: the Vascular Mild Cognitive Impairment (VMCI)-Tuscany Study 61

2.1.2 Biological significance of total small vessel disease MRI burden in Cerebral Amyloid Angiopathy 83

2.1.3 Total small vessel disease burden on MRI and impairments in structural brain networks in patients with Cerebral Amyloid Angiopathy 96

Chapter 2

Cerebral Small Vessel Disease and cognitive features 105

2.2.1 Winblad’s criteria for differentiating vascular from degenerative mild cognitive impairment. Results from a case-to-case comparison 105

2.2.2 Mild cognitive impairment etiologic subtyping using pragmatic and conventional criteria: preliminary experience in the Florence VAS-COG clinic 119

2.2.3 Visuospatial functioning in Cerebral Amyloid Angiopathy: a pilot study 132

PART 3. REHABILITATIVE ISSUES IN CEREBRAL SMALL VESSEL DISEASE

Chapter 3

Rehabilitative issues in cerebral Small Vessel Disease 149

3.1 Rehabilitation of attention in patients with mild cognitive impairment and brain subcortical vascular changes using the Attention Process Training-II. The rehatt Study 149

3.1.1 The rehatt Study: Introduction 150

3.1.2 The rehatt Study: APT-II program 152

3.1.3 The rehatt Study: Methods 153

3.1.4 The rehatt Study: Results 160

3.1.5 The rehatt Study: Discussion 162

3.1.6 The rehatt Study: Conclusion 165

PART 4 – DISCUSSION

Chapter 4

Discussion 171

PART 5 – CONCLUSIONS

Chapter 5

Conclusions 175
